Dr. Samuel Chiles Mitchell, president

According to statements made at the college yesterday, it is improbable that a successor of Dr. Mitchell will be chosen. It is the general opinion that the board of visitors will conduct the business of the college themselves, unless, as one man expressed it, "We can get another Mitchell." The hoard holds that most of the business of the college has been conducted by it through L. Z. Morris, chairman of the special Council committee on approach to Mayo Bridge, when it is expected that an agreement will be reached between the railway company and the city as to the transfer of property abutting on Fourteenth Street to the city. If agreement is teached, it is probable that Fourteenth Street will be widened to make an approach to the bridge.
